# VIRTUAL GRADUATION

ASIA PACIFIC UNIVERSITY OF TECHNOLOGY & INNOVATION

(Bachelor's Degrees, Master's Degrees and PhDs)

16 OCTOBER  
**2021**

**CONGRATULATIONS**  
**— TO ALL —**  
**APU GRADUATES!**

## VIRTUAL GRADUATION Degree Programmes

16 October 2021

### Session 1

#### Itinerary

Login & Welcome by the Master of Ceremonies

#### Time

10:00 am

#### Commencement of Ceremony

10:10 am

Welcome Address by Dr. Hari Narayanan, Vice Chancellor, APU

Graduation Address by Professor Liz Barnes, Vice Chancellor, Staffordshire University, UK

Speech by Valedictorians

Congratulatory Address by Datuk Parmjit Singh, CEO, APIIT Education Group

Graduation Ceremony

10:40 am

- Virtual Presentation of Scroll to Graduates

End of Ceremony

12:30 pm

---

### Session 2

#### Itinerary

Login & Welcome by the Master of Ceremonies

#### Time

2:00 pm

#### Commencement of Ceremony

2:10 pm

Welcome Address by Dr. Hari Narayanan, Vice Chancellor, APU

Graduation Address by Professor Liz Barnes, Vice Chancellor, Staffordshire University, UK

Graduation Address by Professor Katie Normington, Vice Chancellor of De Montfort University, UK

Speech by Valedictorians

Congratulatory Address by Datuk Parmjit Singh, CEO, APIIT Education Group

Graduation Ceremony

2:40 pm

- Virtual Presentation of Scroll to Graduates

End of Ceremony

4:30 pm

## DATUK PARMJIT SINGH

*CEO, APIIT Education Group  
Asia Pacific University of Technology & Innovation (APU)  
Asia Pacific Institute of Information Technology (APIIT)*

***“ Heartiest congratulations to you on this important day. Your Graduation is indeed, a momentous and very significant event for all of us at APU. ”***

For each and every one of you, this day marks the beginning and furtherance of a professional career and represents a major milestone in your development as a professional. For your families, it serves as a happy reminder of success that comes with effort and sacrifice. For us, it signals the realisation of our mission to provide you with world-class education.

A number of you have also excelled in many other ways - either by winning accolades in competitions at national and international levels, or by leading other students and participating in organising extra-curricular activities, and you deserve our heartiest congratulations for this.

Your success, which we celebrate today, is proof of the strength and success of our partnerships with Staffordshire University and De Montfort University. This symbiosis has resulted in unique programmes being delivered by APU with a commitment to professionalism and international standards.

As a regional Institution of repute, we are also focused on product-centred R&D involving both staff and students. Our efforts have been recognised by the R&D grants received and the commercialisation of ideas with global appeal and social impact.

Our commitment to holistic professional development is also expressed within our overseas campuses in Sri Lanka and India, as well as through our partnerships in Nepal and Hong Kong. In receiving your awards today, you are joining an international community of APU Graduates representing more than 130 nations who are recognised internationally for their professionalism and expertise.

Congratulations once again on your much deserved success. We are all proud of your achievements and wish you well as you progress in your future careers.

## **DR. HARI NARAYANAN P. ONDIVEERAN**

*VICE-CHANCELLOR*

*Asia Pacific University of Technology & Innovation (APU)*

Greetings to all our graduands, family members and friends. I'm sure you have been looking forward to this occasion for a long time. Given the current unprecedented times, we explored alternative means to realize this occasion. And the best and timely way to hold this graduation ceremony is virtually. Whilst we do not have the chance to meet and mingle and feel this special occasion in the campus, it is more important that we highlight and celebrate your success via this ceremony.

The graduands of 2020/2021 are special! You have faced disruptions and challenges; we know a few of you even contemplated on deferring your studies. We are extremely pleased to note that you are here (albeit virtually) after overcoming all of these and successfully graduating in your respective field of studies. Congratulations!

As all of you are aware, our purpose in APU is to transform you to become highly employable, competent and future professionals. We trust that your journey in APU not only enabled you to gain the competencies in your field of study but also gave you the opportunity to shape your behavior and character, enhance your attitude and to interact with fellow students from a diverse set of cultures from over 130 countries. And no doubt, the challenges you had faced during your journey in APU, especially in the last mile have strengthened your resolve to face and overcome future challenges.

One of the unique and continuing efforts by our staff in APU is to provide opportunities for students to participate in external competitions that test their ability to apply their learnings to real world problems. It is so pleasing to note that Students of APU have continued to bag top awards nationally and globally despite the current challenges and constraints.

All these achievements you have acquired underline the last word in our Purpose statement, "professionals". As you venture out there, you will note that "professionalism" is given equal prominence to your tacit knowledge and competencies in your future success in whatever you do.

In closing, let me please share with you two quotes that underline success:

"Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do"

And

"The only way to do great work is to love what you do"

I wish you the very best in your future endeavors.

As you take on the next step, please think of your Alma Mater and stay connected with us. Congratulations Again.

## PROFESSOR LIZ BARNES

*VICE-CHANCELLOR  
Staffordshire University*

I have great pleasure in congratulating you on the completion of your Staffordshire University and APU/APIIT awards, and consider it a privilege to be able to send you this message on the important occasion of your graduation. Today you become a member of a worldwide international community of Staffordshire and APU graduates who are shaping and influencing their own futures and those of their communities. We welcome you to the ever-growing number of people across the world who are proud to have earned a Staffordshire University award.

You have been on a journey that will have opened your hearts and minds to new ways of thinking and will have enhanced a range of skills to prepare you for your future careers. You perhaps didn't anticipate how challenging that journey would sometimes be, and how you would sometimes doubt your ability to complete it: I salute and congratulate you on the hard work and sacrifices you have made to get to this point today.

Your journey has been taken in a world that is continually changing economically, politically and socially, and in a world that continues to present, as yet unforeseen challenges and opportunities. This year, the global pandemic has forced changes to the way in which learning and teaching takes place, to the way in which people engage in work, and the way in which they lead their lives. These changes have highlighted the importance of being flexible and adaptable and able to embrace and use digital technologies. Studying for your degree has given you vital knowledge and skills that will prepare you for a future where the ability to continuously change, innovate and adapt are essential. Learning should never stop; this is not the end of your journey but just the beginning and it is important to think how you can make your own personal contribution to your families, your society, and your country. Each and every one of you now has the opportunity to do exactly that and I wish you all the very best for your future, wherever that future may lie.

Please take time to say a special thank you to all those who have helped you to reach this milestone in your life. This will no doubt include the dedicated, talented and hardworking staff at APU and most importantly your own loved ones, many of whom will have quietly sacrificed more than you realise to help you travel this road. Celebrate and be proud; do not lose touch with the friends you have made, and please tell us about your successes and achievements. We always want to hear about what you are doing, how your degree has helped you progress, and how you look back on your experience at APU.

We are extremely proud of our longstanding partnership with APU, and are also proud to be able to name the many thousands of APU/APIIT students as Staffordshire University alumni, a community which you today will join.

So congratulations again to the Class of 2021, and I sincerely hope you enjoy this very special day.

## **PROFESSOR KATIE NORMINGTON**

*VICE-CHANCELLOR  
De Montfort University*

As Vice-Chancellor of De Montfort University (DMU), I am incredibly proud to be able to congratulate those students graduating today through our partner Asia Pacific University (APU). Together we have created a successful partnership which has enabled you as world-class graduates to successfully complete your studies.

The global pandemic has created a number of challenges during the past 18 months, meaning that new ways of studying have had to be found. My warmest congratulations go out to your success in reaching your graduation, for the extra commitment and focus you have clearly shown in achieving what you have, in the way you have, at the time you have.

Every graduate should be proud and confident in knowing that their new qualification has been achieved through their hard work and through the high quality teaching and support they have received. Your degree will have sustaining value and meaning well beyond today in the way it enables you to go forward and achieve greater things. As you become active, productive and influential members of our global society, remember that in sharing your new skills and understanding you can benefit many.

DMU is a globally minded teaching and learning community that also feels like a family. Today's APU graduates will be enthusiastically welcomed into our alumni group 'DMU For Life'. Our international friends' and partners' energy, ideas and enthusiasm enrich the experience all our students, graduates, teachers and professional staff.

As recently appointed Vice-Chancellor of DMU, I see more and more clearly each day how universities such as APU and DMU have been presented with an important generational opportunity to re-emphasise the value that quality higher education and strong teaching communities have as the means of finding solutions to – and even pre-empting – future real-world challenges.

Something I hope is also shared and understood by all those connected with today's celebration is the strength that career confidence offers those interested in their future success. In my first months leading at DMU, one of the highlights was seeing the careers and employability service named the best in a UK university at the distinguished National Undergraduate Employability Awards. It was gratifying that this honour indeed recognised our ability to innovate – but equally, that we listen to what our students want, and so can empower them to meet their ambitions and make a difference.

I encourage those graduating today to go and do just that. Many congratulations.
